Emballage cadeau rouge et blanc et décorations

v14556

Ces cadeaux sont emballés dans du papier d'emballage rouge et blanc et décorés différemment avec du rubande masquage assorti, un ruban cadeau, un ruban décoratif, des étoiles en papier tissé et des étiquettes de manille avec des paillettes. Tous sont de la série de design Vivi Gade.

Comment faire

A Wrap the gift in wrapping paper with a different design on each side. Decorate with a wide band made from the same paper but with the other design on the outside. Tie decorative ribbon around the present in both directions. Decorate with a bow and attach a manilla tag.

B Wrap the gift. Decorate with glittery and glossy paper star strips in two widths. Weave them together vertically and horizontally. Secure with double-sided adhesive tape. Attach a star (which is woven with upstanding points only on one side) to one of the strips using Dodz adhesive dots. (Follow the weaving instruction steps 1-16 printed on the packaging of the paper star strips).

C Wrap the gift. Decorate with a wide tissue paper band and a narrow band from the same paper (but with the other design on the outside) and punch out designs in this with a paper punch. Punch out designs in the manilla tag and attach it to a decorative ribbon which is tied around the gift in the other direction.

D Wrap the gift. Decorate with gift ribbon and narrow paper star strips, weaving them together vertically and horizontally. Secure with double-sided adhesive tape. Attach a cube-shaped star with Dodz adhesive dots (Get the weaving instructions for this star on our website under idea No. 14216). Remove the middle point of the star on one side using a craft knife. This in order to make the star flat so that it can be attached onto the gift.

E Wrap the gift. Attach a Masking Tape band and a long piece of thin gold thread wrapped around the gift several times. Attach small pieces of Masking Tape onto one single gold thread by doubling it over and trim the ends in a swallow-shaped flag. Decorate with a star (which is woven without the upstanding points). Follow the instruction steps 1-12 on the packaging of the paper star strips.

F Wrap the gift. Attach a glossy paper star strip as a band using double-sided adhesive tape. Punch out designs in the manilla tag and attach it to the decorative ribbon which is tied onto the gift on top of the band. Glue the punched-out designs onto the gift.

G Wrap the gift. Attach a band made from a glossy paper star strip using double-sided adhesive tape. Attach a glossy paper star onto the band with Dodz adhesive dots. The star is woven with the upstanding points only on one side. (Follow the instruction steps 1-16 on the packaging of the paper star strips).

H Wrap the gift. Tie a decorative ribbon around the gift in both directions and finish with a bow at the top.
