

Papier-Mâché with Wood Veneer

v12054

Papier-mâché bird boxes covered with hand-made paper and wood veneer using VTR adhesive.

Comment faire

1 Paint the edges of the lid with Plus Color.

2 Brush the sides of the birds with VTR adhesive and cover with hand-made paper.

3 Draw the shape of the bird box lids onto wood veneer and cut out.

4 Attach the bird wood shape onto the lids with double-sided adhesive tape.

5 Make holes in the middle of the lids with an eyelet tool.

6 Fold a piece of the leather cord into 3-folds, long enough to tie a knot and to attach a wood bead at both ends (approx. 10cm).

7 Tie a knot in one end and thread on a wood bead.

8 Insert the cord end into the hole of the lid.

9 Attach another wood bead onto the leather cord from the inside of the lid. Glue it on on the inside of the lid.
