

Pastel Coloured Cones

v11841

Traditional cones made in pastel colours and decorated with white turkey feathers and beads.

Comment faire

1 Draw the cone using the template and cut out.

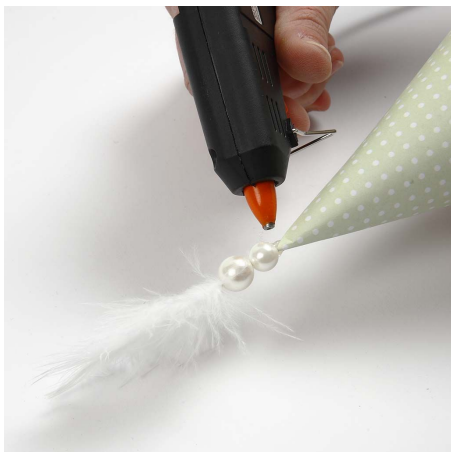

2 Attach glue or double-sided adhesive tape onto the edge and assemble the cone.

3 Attach a weaving paper strip as a handle. Make a traditional handle or make a double handle for a great look by folding a paper strip.

4 Decorate with feathers and beads as you like and glue on using a glue gun.

5 You may cut out a design from the Vivi Gade Design Paper or choose another colour for decoration. Attach with glue or double-sided adhesive tape.

6 Finish by decorating the cone with a Pearl Pen or glitter.
