

Des lutins à suspendre

v12689

Ces lutins sont faits à partir de feutre design Vivi Gade et sont cousus ensemble à la machine à coudre ou à la main.

Comment faire

1. Découpez deux morceaux de chaque partie. Un rabat est inclus dans le modèle.

2. Sew the parts together by hand or on the sewing machine, with visible seams (place the fabrics staggered on top of each other).

3. Finally sew the back and the front together. Attach a ribbon in the hat as you go along. Trim the edge.

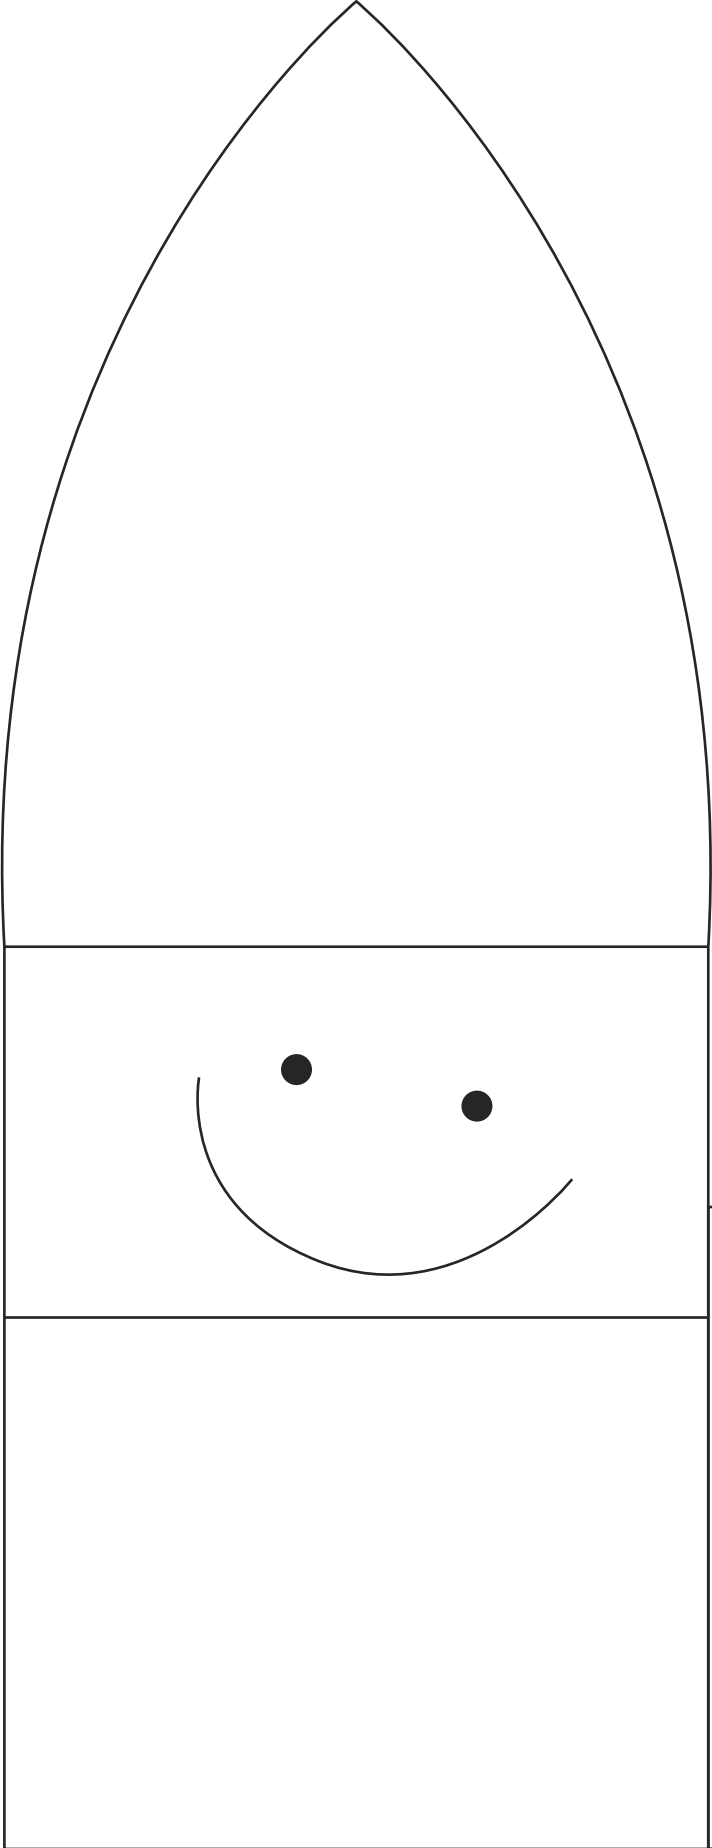

4. Now fill the pixie with polyester wadding and close the base.

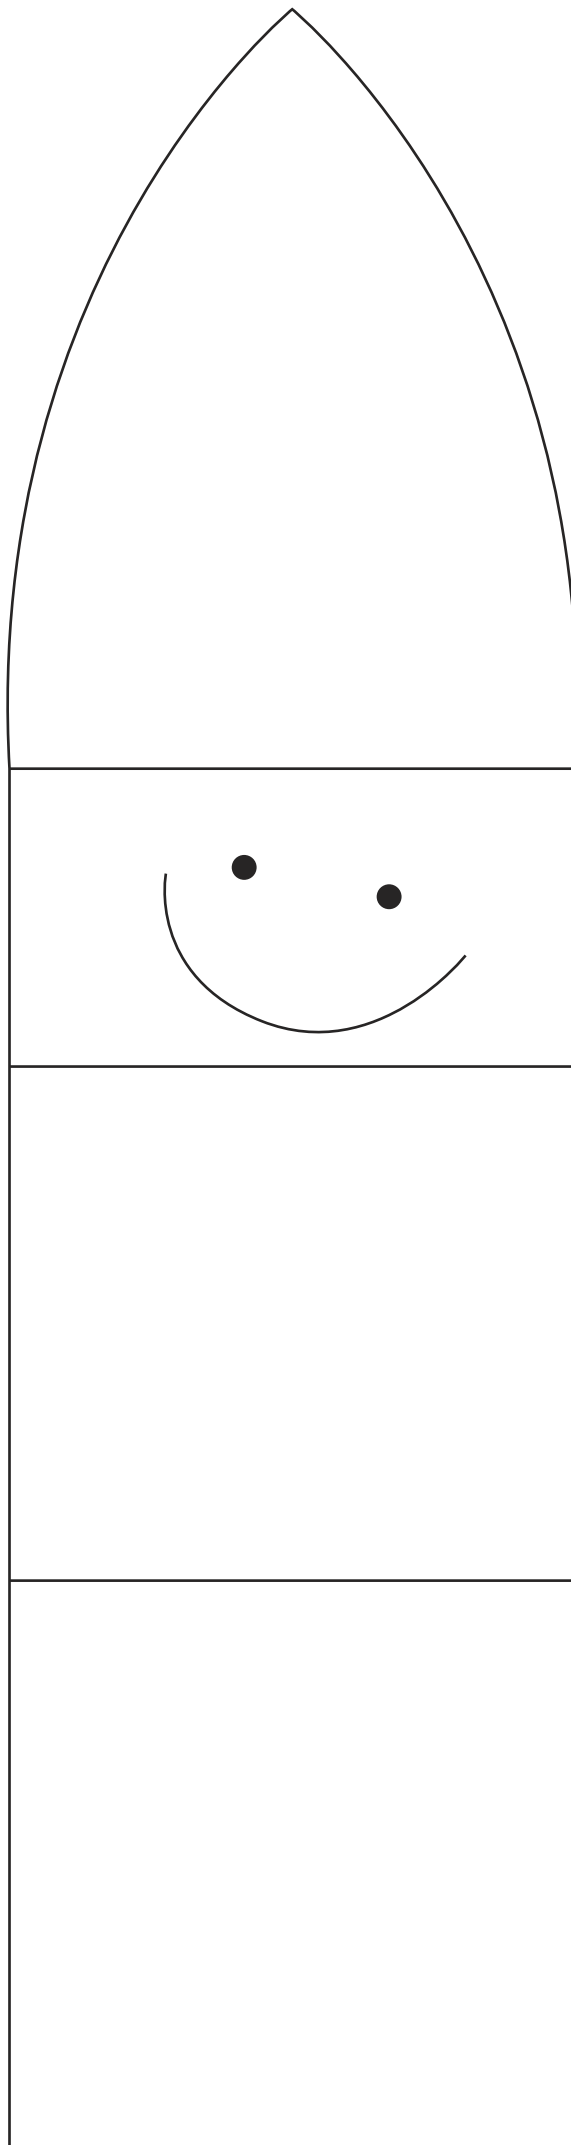

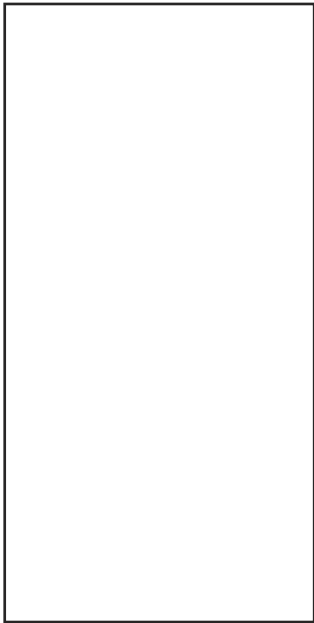

5. Embroider the face and the legs with mercerised cotton yarn.
