

A Floral Wire Doll Shape with a Needle Felted Dress

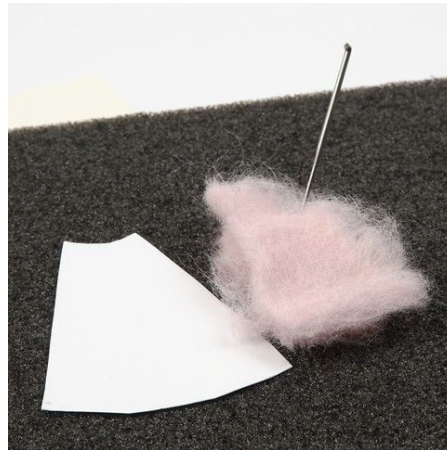

v12954

This hanging doll shape is made from floral wire, dressed in a needle felted dress and with a stuffed fabric head.

Comment faire

1. Shape the doll's body and arms from floral wire. Attach the stuffed fabric head with a glue gun and draw facial features with a marker pen. **TIP!** Instead of attaching the head with with a glue gun, you may start shaping the doll's body by inserting the floral wire through the head.

2. Needle felt a dress using the template.

3. Wrap the dress around the doll's body and needle felt it onto the body securely by adding small needle felted dots in a different colour.

4. Needle felt some hair onto the doll's head. Attach a piece of embroidery yarn onto the hair for hanging.

5. Thread a bead onto the piece of yarn for hanging and glue a polyresin crown and a fabric bow onto the doll's head.
