

Bougeoir entouré de treillis coloré

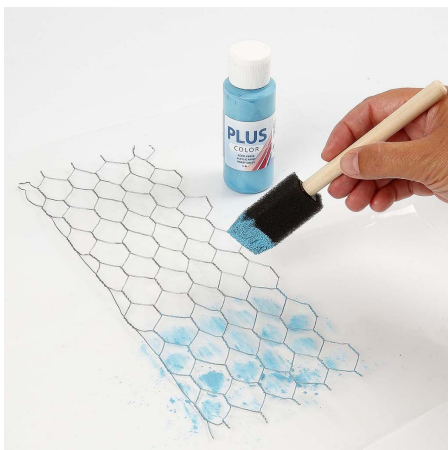

v14359

Ce bougeoir est décoré d'une ceinture en treillis, peinte avec de la peinture acrylique Plus Color.

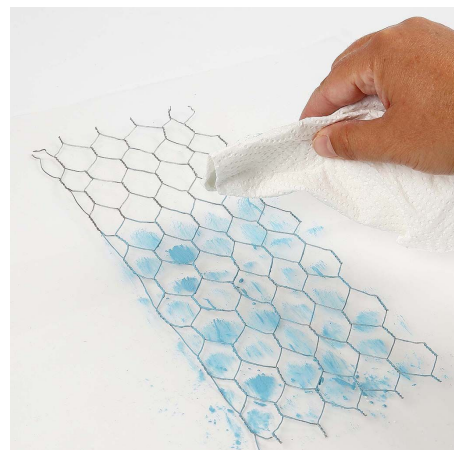

Comment faire

1 Cut a 18 x 10 cm piece of chicken wire netting.

2 Saturate a foam stencil brush with Plus Color craft paint and paint the wire.

3 Use a piece of kitchen roll to dab the wire, resulting in a well-worn and rustic look.

4 Put the chicken wire netting around the candle holder like a waist band (with the firm edge of the wire at the top).

5 Gather the waist band by twisting all the loose ends together where they meet. You may use chain nose pliers.

6 Bend excess chicken wire netting underneath the base of the candle holder.
