

Un cahier avec avec une couverture en Bandana

v14640

La couverture de ce cahier est décorée d'un bandana lequel est collé dessus.

Comment faire

1 Open up the book and cut the bandana to size, so that it is approx. 3 cm bigger all the way around the book.

2 Apply special glue (VTR Glue) to the book cover and attach the fabric. Cut a diagonal incision on each side of the book's spine beforehand (at the top and the bottom), creating a flap. Remove the book and turn up the flap. Fold both corners on either side of the flap diagonally (at the top and the bottom). Fold the fabric over the book cover. (Take care to avoid the inside pages). Using the same method, fold the fabric down over the book cover on both sides. You may refer to idea No. 14464 "bookbinding books".

3 A decorative and practical bookmark: Cut a long piece of elastic cord and tie it around the book.
