

Environmentally friendly Dishcloth decorated with stamped Designs and Textile Markers

v15460

Decorate your very own environmentally friendly dishcloth with stamped designs and textile markers. The foam rubber stamps have different geometric shapes which are transformed into fruit designs. Fix the dishcloth with an iron for 10-60 seconds to fix the colours when washing at 60°C in the washing machine.

Comment faire

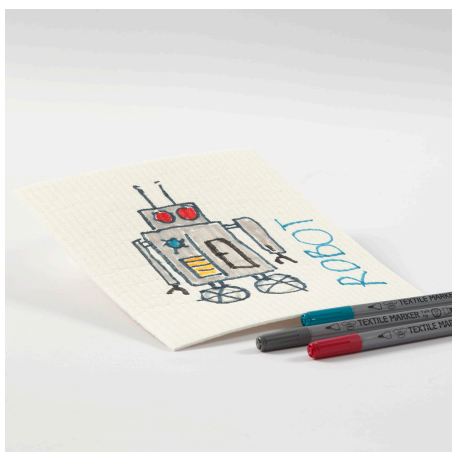

1 Push the foam rubber stamp in the ink pad and stamp the design onto the dishcloth.

2 Add details with textile markers.

3 Fix the dishcloth with an iron for 10-60 seconds to fix the colours when washed at 60°C.

Another variant You may choose only to decorate with textile markers. Fix the dishcloth with an iron.

5 The dishcloth on the right has shrunk slightly as it has been washed at 60°C in the washing machine.
