

A storage bag from faux leather paper decorated with rattan

v15604

Decorate a faux leather paper storage bag by attaching a rattan waistband around it.

Comment faire

1 Cut a 37 x 11 cm piece of rattan. You may steam iron the rattan, using a medium setting, prior to attaching it onto the faux leather paper.

2 Fold up the edge of the faux leather paper bag. Attach the rattan around the bag and glue the joint together. Make sure that the seam of the rattan is flush with the seam on the storage bag.

3 Tie a couple of pieces of twine around the bag to keep everything in place whilst the glue is drying. Once the glue is dry, cut off the twine and fold the edge of the storage bag down again.
