

Star-shaped candle holders from self-hardening clay

v15814

Make your own star-shaped candle holders by cutting stars from self-hardening clay and pushing a candle into the middle. Allow approx. 24 hours for drying.

Comment faire

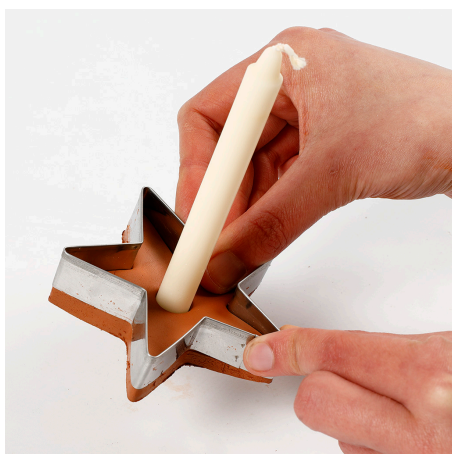

1 Knead a lump of self-hardening clay thoroughly and roll it flat with a rolling pin until the clay is the same depth as the shape cutter.

2 Push the shape cutter all the way through the clay and remove the excess clay around.

3 Push a tall candle into the middle of the star.

4 Carefully push the clay star with the candle out of the shape cutter without breaking it.

5 Leave the candle holder to dry for approx. 24 hours.
